### *Profile*

IT Technician with 7+ years of hands-on experience working with client systems, diagnostics, repairs, and upgrades. Used to handling multiple systems at once, solving real issues, and keeping work organized under pressure.

### *Experience*

#### **IT Technician — PC Comp (2025 – Present)**

- Diagnose and fix hardware and software issues on client PCs and laptops
- Handle Windows installs, BIOS setup, upgrades, and performance fixes
- Work on multiple systems at the same time while keeping quality consistent

#### **Sales — Buton Electronics (2024 – 2025)**

- Help clients choose hardware and electronics based on their needs
- Handle sales, communication, and after-sales support
- Recommend products based on compatibility, performance, and budget

#### **IT Servicer — Point Computers (2019 – 2024)**

- Resolved 1000+ hardware and software issues (boot problems, slow systems, hardware faults)
- Worked with 200+ client systems in daily service conditions
- Improved repair speed by adjusting how diagnostics were handled
- Built and maintained custom systems (gaming, office, mining setups)

### *Key Work*

- Reduced repair time by improving diagnostic workflow
- Handled large number of client systems while keeping stability and data safety
- Worked daily with different types of issues, not just one system type

### *Skills*

Diagnostics • Hardware • Windows • BIOS/UEFI • System Upgrades • Remote Support • Client Support

### *Certificates*

CCNA 1–4 • IT Essentials
